Profile

Currently studying in Manipal Institute Of Technology (3rd Year) in Information Technology and have been developing web-based solutions & cross-platform mobile applications using React native or the JAVA for android.

Apart from developing I am a fitness freak and love to play soccer, basketball and training for Muay Thai (Form of martial art).

I like to share knowledge and I have been a speaker at my college where I gave some talks & conduct workshop's regarding git, open source, GSOC etc.

Experience

Google Summer of code (2016 March - 2016 September)
Worked as a lead Android application developer for Zulip, Kandra Labs.
In which I redesigned their whole project, replaced all old deprecated libraries.
And now managing their repository and reviewing the current contribution going on.
